

ADS-NIDUS Grant Writing Workshop

Sunday June 29, 2025; 8 am-12 noon

The ADS-NIDUS Grant Writing Workshop aims to enhance the skills of delirium researchers at all career stages as they prepare proposals for federal, foundational, or other funding opportunities. This four-hour workshop, led by experienced delirium researchers, will incorporate a mix of short instructional lectures and mentored small group discussions. The focus will be primarily on the critical elements necessary to develop a strong aims page and ensure its alignment with the overall research proposal. Prior to the workshop, attendees will be required to submit a draft of their aims page, which will serve as an educational template throughout the session.

Time	Topic/Activity	Faculty
8:00-8:15	Introductions Aims page overview: importance, structure, and linking it to rest of the application	John Devlin, PharmD
8:15-8:30	Para 1: Laying out the problem, rationale and current gaps (Significance) & Para 2: Outlining the solution, central hypothesis and project goal	Mark Oldham, MD
8:30-9:00	Interactive round table discussion: Para 1 and 2	
9:00-9:15	Para 3: Developing specific aims	Jin Han, MD, MSc
9:15-9:45	Interactive round table discussion: Specific aims	
9:45-10:00	Break	
10:00-10:15	Para 3: Summarizing an approach (methods) for each aim	Babar Khan, MD, MSc
10:15-10:45	Interactive round table discussion: Specific approach	
10:45-11:00	Para 4: Summarizing the expected outcomes, impact and innovation	Lis Evered, PhD
11:00-11:30	Interactive round table discussion: Expected outcomes, impact and innovation	
11:30-12:00	Conclusions, next steps and attendee reflections	John Devlin, PharmD

Faculty:

Noll Campbell, PharmD, MSc, Purdue University/Indiana University
Elizabeth Colantuoni, PhD, Johns Hopkins University
John Devlin, PharmD, Northeastern University/Brigham and Women's Hospital
Lis Evered, PhD, Weill Cornell Medicine/University of Melbourne
Tim Girard, MD, MSc, University of Pittsburgh
Jin Han, MD, MSc, Vanderbilt University
Babar Khan, MD, MS, Indiana University
Sikander Khan, DO, MPH, Indiana University
Mark Oldham, MD, University of Rochester
Ben Palanca, MD, PhD, Washington University
Pratik Pandharipande, MD, MSCR, Vanderbilt University
